

Submitted to Future Grant Support for Forestry
Submitted on 2023-05-16 16:41:08

Ministerial Foreword - Forestry in Scotland is a sector that we can be justly proud of.

1 - Introduction and Rationale for Providing Grant Support for Forestry

1. Do you agree that grant support for forestry should continue to be improved and developed as a discrete scheme within the overall package of land support?

Yes

Please explain your answer in the text box.:

Grants should support restoring and expanding native woodland.

Grant schemes need to work to reverse declines in native woodland, support the recovery of nature, and contribute to addressing climate change.

They also need to support social and community benefits - particularly recreational access and access to green space close to where people live and work.

A refreshed Forestry Grant Scheme should emphasise biodiversity, community wealth building - including access to the outdoors and connecting with nature. Access to green space brings important physical, mental and social benefits to communities.

Enable natural regeneration of native trees at landscape scales.

2. Are there any changes that would allow for better complementarity between the forestry and agriculture funding options?

Yes

Please explain your answer in the text box.:

Support for recreational access across forestry and agriculture could bring more joined up enhancement of opportunities around where people live and work.

2 - Forests Delivering for Scotland's Climate Change Plan

3. How can the support package for forestry evolve to help tackle the climate emergency, to achieve net zero, and to ensure that our woodlands and forests are resilient to the future climate?

Please explain your answer in the text box.:

We don't have detailed comments on this but agree that climate action is clearly a priority

4. Private investment through natural capital and carbon schemes can make a valuable contribution to climate change. Do you agree that the grant support mechanism should have more flexibility to maximise the opportunities to blend private and public finance to support woodland creation,

Not sure

Please explain your answer in the text box.:

5. How could the current funding package be improved to stimulate woodland expansion and better management across a wide range of woodland types, including native and productive woodlands?

Please explain your answer in the text box.:

6. Do you agree that it should be a requirement of grant support that woodlands are managed to ensure that they become more resilient to the impacts of climate change and pests and disease?

Yes

How can the grant scheme support this?:

3 - Integrating Woodlands on Farms and Crofts

7. Which of the following measures would help reduce the barriers for crofters and farmers wanting to include woodland as part of their farming business? Please select all that apply.

Are there others not listed above?:

8. Establishing small woodlands can have higher costs. What specific mechanisms would better support small scale woodlands and woodland ownership?

Please explain your answer in the text box.:

4 - Forests Delivering for People and Communities

9. How can forestry grants better support an increase in easily accessible, sustainably managed woodlands in urban and peri-urban areas?

Please explain your answer in the text box.:

Continue to engage with communities to raise awareness of walking opportunities in forests and woodlands.
Continue to support and invest in recreational use - with a focus on walking and all ability access close to where people live and work.
Improve access for under represented groups.
Collaborate with NGOs and charities to promote access.
Continue support for eg health walks, dementia activities in woodlands and the Branching Out programme.
Promote more waymarked paths and trails.
Promote all abilities access for a wider range of users that reflects Scottish Society more widely.
Continue to contribute to and play an active role in Local Access Forums.
Continue to engage andn work with communities.
Continue the valuable work of rangers in engaging with communities and the wider public
Adopt and promote path grading <https://www.pathsforall.org.uk/resources/resource/path-grading-guide>.

10. How can grant support for forestry better enable rural communities to realise greater benefits from woodland to support community wealth building?

Please explain your answer in the text box.:

11. How can the forest regulatory and grant processes evolve to provide greater opportunities for communities to be involved in the development of forestry proposals?

Please explain your answer in the text box.:

12. How can the forestry regulatory and grant processes evolve to ensure that there is greater transparency about proposals and the decisions that have been made on them?

Please explain your answer in the text box.:

13. Forestry grants have been used to stimulate rural forestry businesses by providing support with capital costs. Do you agree that this has been an effective measure to stimulate rural business?

Not sure

a. How could this approach be used to support further forestry businesses?:

b. How could this approach be used to support further skills development?:

14. How could the FGS processes and rules be developed to encourage more companies and organisations to provide training positions within the forestry sector?

Please explain your answer in the text box.:

5 - Forests Delivering for Biodiversity and the Environment

15. The primary purpose of FGS is to encourage forestry expansion and sustainable forest management, of which a key benefit is the realisation of environmental benefits. How can future grant support better help to address biodiversity loss in Scotland including the regeneration and expansion of native woodlands?

Please explain your answer in the text box.:

16. Herbivore browsing and damage can have a significant impact on biodiversity loss and restrict regeneration. How could forestry grant support mechanisms evolve to ensure effective management of deer populations at:

Landscape scale?:

Small scale mixed land use?:

If you wish to make any other relevant comments, please do so in the text box below.

Please add your comments here.:

About you

What is your name?

Name:
Ian McCall

What is your email address?

Email:
